

Quality Policy

Our quality policy is to design, manufacture and market optical fiber and related products **that meet customer requirements and exceed customer expectations**. Our commitment is to achieve this by:

1. **Following and embracing an effective company-wide quality management system**
2. **Delivering superior customer service** in all phases from pre-sales to product delivery
3. **Applying technology and innovation** to product design and manufacturing
4. **Optimizing manufacturing processes** to minimize variation and ensure repeatability
5. **Continually improving** our manufacturing and business systems by:
 - a. further developing employee skills and knowledge
 - b. setting measurable quality objectives and using data-driven decision-making
 - c. encouraging strong employee involvement and learning from our customers, suppliers and other stakeholders

A handwritten signature in black ink, appearing to read 'A. Soufiane'.
