

WinTest PC Software

WinTest Software, V 1.24.13

WinTest is a Windows®-based application designed to retrieve live and stored test results from the OPM 5, OPM 6, ORL 3, ORL 3B, OLTS 5, TurboTest 500, and TurboTest 500B. Once test results are downloaded to your PC, fiber documentation reports may be generated, stored, and printed.

Installation Instructions:

1. Follow the on-screen instructions for downloading the WinTest software to your PC.
2. Once downloaded, double-click on " WinTestV1.24.13.exe".
3. Follow the on-screen instructions to install program files.
